OBJECTIVE

A focused and goal-oriented engineering professional with zeal to make a winning career in Software Development.

Skills in analyzing and interpreting unique problems, with a combination of project experience and logical and analytical thinking to find the right solutions.

Proficient in Python, mySQL, HTML and CSS. A go-getter with strong communication, coordination, analytical and networking capabilities.

EDUCATION

Bachelor of Computer Science, St.Peter's Engineering College	2021-Present
Intermediate, Ignite Jr College	2019 - 2021
SSC, Shraddha The School	2018 - 2019

SKILLS

Technical Skills	Python, mySql, React.js, Html, Css, JavaScript
Soft Skills	Communication, Adaptability, Time management, Critical thinking

PROJECTS

Traffic Sign Classification.
Built a model for traffic sign recognition with deep learning that guarantees people's safety and security in our country. It is made with uses of Python, Html, Css and Dataset. Over people have used it already with many accidents being saved.

User Management System
Built a User managment system using reactjs and allows users to login and register through this website.
Utilized state management libraries like Redux for efficient data handling and seamless integration of complex user management features.

CERTIFICATIONS

- Completed Google Cloud Computing certification.
- Participated in 6hrs Coding hack-a-thon.
- Participated in Project Expo in College and got third place
